Docket No. 98N-1265
Food and Drug Administration '99 APR -9 A10:58

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: The availability of my individually compounded hormones, WHICH ARE SHIPPED "ACROSS STATE LINES" to me, has enabled me to function at my normal levels after a terrible year in which I was diagnosed with early menopause. The dramatic changes I experienced that year in my emotional stability and personal relationships due to lack of hormones were quickly alleviated by my compounded hormones. Because I am extremely sensitive to medication, this was the very only way for me to go. Please DO NOT PASS The Draft MoU being considered by the FDA.

Please fold, seal, and mail by March 22
